

SMARTHANDLE<sup>®</sup>  
color code grip

The latest developments in material technology have been applied on medical instrument handles for the first time. The new approach brings a lot of advantages:

**SMARTHANDLE<sup>®</sup>**  
color code grip

☒ **GOOD GRIP**  
no slip off during surgery

☒ **SOFT FEEL**  
no squeeze during long surgery

☒ **FDA APPROVED**  
consistent colors

☒ **INDIVIDUAL COLOR CODING**  
numerous handle colors available

**SMARTHANDLE®**  
color code grip

### CHOOSE APPLICATION

This system can be applied to any kind of instrument handle. Kerrison punches, Screwdrivers, Chisels, and Curettes are only a few examples of successful implementations

### BUDGET SAVING INNOVATION

We have managed to make Smart Handle technology available at low cost and for low quantities already. The minimal order is 100 pieces only.

For further information about the utilization of Smart Handle technology contact our headquarters. We will be glad to answer all your questions.

the colors used in this brochure are just examples

**TECHNOLOGY. SIMPLICITY. SOLUTION.**
